SUPREME COURT RESTRICTS STRIKE PICKETING

Peace Between Ireland - Britain More Remote Than Ever

DELEGATES LEAVING FOR HOME WITHOUT REACHING AGREEMENT

(By Associated Press) LONDON, Dec. 5.—The Irish peace negotiations have broken down, according to statements in responsible quarters, and the Dail Eireann delegates are expected to return finally to Ireland tomorrow or Wednesday. On the government side, was indicated, the argument will be that the refusal of the Sinn Fein to accept allegiance to the King made an agreement impossible, since that condition was insisted upon by the British and was in addition an essential preliminary to obtaining a settlement from Ulster. The truce still remains in effect, and no immediate resumption of hostilities is looked for.

The Sinn Fein, it is declared, refused even a conditional promise of allegiance contingent upon a settlement, the most it offered being to "recognize" the king as head of the Commonwealth of Free Nations. The truce will continue to exist until notice of its termination is formally given and both the government and the Sinn Fein say they have no intention of giving notice. Nevertheless, both sides feel, it is declared, the course of events will be bound to involve a renewal of hostilities.

The big questions at issue between the British government and the representatives of the Irish Republic have been:

Small Ireland become entirely independent or, if it remain within the British Empire, shall there be two separate governments in Ireland, one for Ulster and one for the rest of the country?

Prime Minister Lloyd George has refused to consider any proposal which would put Ireland outside the Empire.

The Sinn Feiners refused to admit that Ireland should be split in two parts.

Ulster refused to unite in one parliament with the Sinn Feiners. It has organized a parliament of its own under the Government of Ireland Act.

The Sinn Feiners refused to set up a parliament for the South of Ireland, as proposed in that act. They adhered to their own Irish parliament, called the Dail Eireann, which they had set up independently as the governing body of the Irish Republic.

That was the situation when the truce began last July, after King George had made a conciliatory speech at the opening of the new parliament in Ulster.

DISAGREEMENT IN TRIAL OF ARBUCKLE

(By Associated Press) SAN FRANCISCO, Dec. 5.—No agreement was reached by the jury in the Arbuckle trial, and they were discharged at noon yesterday. It was agreed by the attorneys on both sides that there would be no retrial until after the holidays, and January 9 was decided upon as the time for the second trial. District Attorney Brady announced that he would personally present the case to the jury at that time.

BIG RANCHING INTERESTS ARE INCORPORATED

An industry of considerable importance to the welfare of southern Nevada has been strengthened by the incorporation of the Pacific Land & Livestock company, an organization composed of Ardenmont and local people, stock in which company is now being offered to the public.

The principal holdings of the corporation, which is organized under the laws of Nevada, comprise the ranching interests of John Chiatovich and his family, located in Fish Lake valley. There are 2250 acres of deeded lands in the property, as well as 3700 acres held under option. A total of 1000 acres is at present under cultivation, and it is the plan of the new incorporation to develop a sufficient water power to properly irrigate a large percentage of its own acreage, as well as thousands of acres in the valley for other owners.

The power development will affect the waters of Chiatovich, Davis and Middle creeks, the sole power and water rights to which are owned by the company. According to the very conservative estimates of their engineers, it will be possible to develop 500 horsepower for the operation of pumps in various parts of the valley, where water can be found at comparatively shallow depths.

Yearly earnings of the company in its various pursuits are estimated at \$144,000. The company will not only engage in the sale of power but will handle immense herds of livestock and engage in farming on a small scale.

Incorporated with 500,000 shares of common stock at a par value of \$1 per share, and 100,000 shares of 8 per cent cumulative preferred stock at a par value of \$3 per share, it is the plan of the company to first dispose of 35,000 shares of its preferred stock, all of which is in the treasury, with each share of which will be given a bonus one share of the common, 150,000 shares of which is in the treasury.

From the income derived from the sale of this initial block of stock the following plan of action will be carried out: The company to take up its option on 3740 acres of land in Fish Lake valley; to put under cultivation an additional 1000 acres and improve the 1000 acres now under cultivation; to acquire title to an additional 6000 acres; to add to its breeding herds 250 cows and 2000 sheep; to thoroughly establish the subterranean water possibilities on lands contiguous to their present holdings. The company has no authority to sell or dispose of in any way more than 35,000 shares of its preferred stock until it has complied with the above, or by sanction of three-fourths of the preferred stock outstanding.

Present valuation of the properties that have been incorporated is estimated at \$555,000, which includes the lands, livestock and other improvements. Judging from the character of the assets and the officers and directorate who will handle the affairs of the company a bright future is predicted for the company.

The officers of the company are: Margaret Chiatovich, president; W. Marco Chiatovich, vice-president; M. W. Chiatovich, secretary; E. W. Blair, treasurer; J. M. Chiatovich, general manager. The directors of the company are: J. M. Chiatovich, W. Marco Chiatovich, E. W. Blair, C. M. McGinness, M. W. Chiatovich, C. L. Chiatovich and I. S. Thompson, the latter being also attorney for the corporation.

NEW ENTENTE CONSIDERED BY FOUR POWERS

(By Associated Press) WASHINGTON, Dec. 5.—A draft of a quadruple entente which would serve as a substitute for the present Anglo-Japanese Alliance, it was today learned from authoritative sources, is under consideration by the governments of the United States, Great Britain, Japan and France.

This is said to explain the delay of the Japanese government in announcing its decision concerning the question of ratio on naval tonnage because, it appears, that as the problem of warship tonnage is one connected with national policy, the two matters are being discussed together. It was the growing impression that, if the entente can be worked out satisfactorily, Japan would not insist upon its request for a seventy percent ratio of capital ships as against sixty percent suggested in the American proposals.

TRIBUNAL DECIDES NO RULE WILL COVER EACH AND ALL CASES

(By Associated Press) WASHINGTON, Dec. 5.—Organized labor has no right to picket during a strike, when it involves uncertainty, the supreme court declared today, in further stating that no broad rule would be laid down in the matter of picketing, however, but that each case must be considered on its merits to determine whether or not the picketing constituted restraint and intimidation. The decision was announced as a result of an appeal by the American Steel Foundries company growing out of a strike at its plant at Granite City, Illinois.

THIS WEEK FOR AMERICAN EDUCATION

(By Associated Press) NEW YORK, Dec. 5.—The duty of all the friends of education to think seriously and work hard on "the problem of keeping the idea of public education before all the people" is being stressed throughout the country this week.

It has been designated "American Educational Week." The work of arousing interest in the need of cultivating everybody in knowledge and in patriotism is jointly directed by the American Legion and the National Education Association.

Many ministers started the movement yesterday by preaching on education and patriotic topics.

Among the means the American Legion posts adopted to put over its message are:

Speakers before civic, social and commercial organizations; meeting during the week.

Recitations, essays and talks on American history and patriotic traditions in the schools.

Community gatherings and singing of patriotic airs.

Among the projects to be emphasized are the need of better school buildings, libraries, equipment and playgrounds; better attendance; better teachers; longer school terms; better vocational education; better understanding of the form and fundamental principles of our government; and a more universal use of the English language.

(By Associated Press) COBLENZE, Dec. 5.—Engraved calling cards are a late fad among soldiers of the American forces in Germany. Nearly every soldier has engraved cards with his name and outfit and some even have other cards with their home address in the United States, particularly those who are planning to return to America within the next few months.

A hundred cards and plate, at the present rate of exchange of the dollar for the mark, cost the soldier about 50 or 60 cents in Coblenz stationery shops.

WHITE PAINT ON WARSHIPS COOLS THEM

(By Associated Press) LOS ANGELES, Dec. 5.—Medical officers have been removed from command of navy hospital ships and line officers assigned to this duty, revoking an order in existence since the administration of Roosevelt, according to officers of the Pacific Fleet here. In connection with the change, according to staff officers, several points have been brought out concerning the international status under the Hague Convention of 1904. The hospital ships in time of peace have the same status as any other auxiliary vessel of the navy and all previous markings, such as required in time of war, will be removed and they will undoubtedly be painted white. It was found that vessels under the same conditions when painted white, are from six to ten degrees cooler than when painted slate or war color.
